

We Create
VALUE SOLUTIONS
BEYOND Metals

Established in 1947, Lee Kee Group is a leading solutions provider for metals. With our client centric methodology, our geographic coverage has been expanded to Greater China and the ASEAN region.

We are the first company in Greater China to be admitted as a Category 5 Associate Trade Member of the London Metal Exchange (LME), we shouldered our mission:

We Create **VALUE SOLUTIONS** *BEYOND* Metals

Market leadership ensured by Think Big

Our supreme quality non-ferrous metals enable diverse business opportunities by a wide selection of commodity zinc, aluminium, nickel and copper, as well as zinc alloy, aluminium alloy, stainless steel and electroplating chemicals.

Lee Kee-made high-grade quality zinc alloy, namely Mastercast, Genesis, Zintec, SA and aluminium alloy, namely LMP ensured unique business possibilities with custom made alloy and specialty alloy.

Beyond Metals, our Group's businesses also spans across quality assurance and testing, technical consultancy, collaborative research, and development.

Learn and Be Curious to discover unlimited possibility

Our business consulting service team has strong experience of collaborating with manufacturers, engineers, and product designers. Through leverage of Industry 4.0 and data, we ride on the hype of New Industrialization, and develop innovative alloys that meet international standards and diverse business needs. We maintain tight procurement standards enabling our clients' sustainable growth.

Act Fast and Think Hard with stringent governance

Our prudent governance enabled Lee Kee Group to be recognized by renowned awards and accreditations.

More, Promet Metals Testing Laboratory, subsidiary of Lee Kee Group, to be one of the approved LME Listed Samples and Assayers (LSA), which offers metallographic, metallurgical, chemical and mechanical analysis to aid our customer's technical needs.

Technical consultancy with Trust and Integrity

We facilitate manufacturers in rectification on the root of deficiencies in their production process and provide dependable and pragmatic solutions. Our technical consulting service exploited our extensive experience and knowledge in advanced manufacturing to enable sustainable growth for our clients.

Empower Potential

Lee Kee Group has invested in professional technical consultancy and data insights, our cross disciplinary teams with holistic expertise help resource optimization, drive continuous process improvement, and identify opportunities for growth. In addition, we cultivate talents and help clients establish technical competencies to achieve their long-term goals.

Less is More Sustainability with low carbon lifestyle

Lee Kee Group is devoted to sustainability and embraces its mission to stimulate business operations against environmental initiatives and leading the industry with innovative value solutions. We work with like-minded to ensure partners to meet high standards for environmental, social and governance requirements across the metals value chain.
